Some students who have completed four years of a foreign language in high school may have the opportunity to fulfill the foreign language component by taking one, three-credit course above the 212 level.

Yes, I plan to explore this option with my advisor.

(If yes, please list which foreign language _____)

***Current students must request option for 2010 core curriculum by last day of fall semester 2010**

I understand that by changing to the new core curriculum that the following applies:

- There are no exceptions to the 2010 core curriculum requirements (as may currently apply for specific majors in the former core curriculum)
- This change will not alter my academic transcript in any way, including classes taken to fulfill requirements of the previous core curriculum
- Once I have requested to change to the 2010 core curriculum, this change will be permanent and I will not be allowed to return to former curriculum at any time
- My advisor and I have determined that the 2010 core curriculum is the best option for completion of my degree requirements
